- **GRAY SCALE DOCUMENTS**

IMAGES ARE BEST AVAILABLE COPY.

**As rescanning documents *will not* correct images,
please do not report the images to the
Image Problem Mailbox.**

The diagram illustrates a network system architecture. At the center is a computer system 11, consisting of a monitor, a base unit with two drive bays, and a keyboard. Above the computer is a server rack 13, which is connected to the computer via a vertical line. A horizontal line with a zigzag segment connects the server rack 13 to a stack of server racks on the left and another stack on the right. The left stack of server racks is labeled 14h through 14n, and the right stack is labeled 14a through 14g. The zigzag line represents a network connection between the central server rack and the peripheral stacks.
